Profile Summary

A skilled Software Engineer with expertise in Frontend Development, React.js, JavaScript, and Tailwind CSS, with experience in collaborating on Node.js and MongoDB integrations. Strong ability to develop and optimize responsive web applications, ensuring seamless frontend-backend communication through testing and teamwork. Passionate about UI/UX best practices, troubleshooting, and performance optimization, focused on delivering scalable, user-friendly web solutions.

Experience

GeoSensing and Imaging Consultancy - Software Engineer

June 2024 - Mar 2025

- Contributed to the development and maintenance of the corporate website, ensuring a responsive and optimized user experience.
- Designed interactive UI components and optimized performance using React.js and Vite.
- Collaborated with UI/UX designers and backend developers on multiple client projects.
- Tested, debugged, and optimized back-end modules, APIs, and database workflows to enhance performance and reliability.
- Implemented pipelines and resolved performance issues for seamless frontend-backend integration.

AK Infopark - Web Developer Intern

Feb 2024 - Mar 2024

- Developed responsive web pages with HTML5, CSS3, JavaScript, and React.js for seamless cross-device user experience.
- Collaborated with senior developers to improve website performance, accessibility, and functionality.
- Applied frontend development best practices, gaining hands-on experience in debugging and optimizing code.

Projects

E-commerce Admin Dashboard | *React.js, Vite, CSS3, JavaScript* | [Live Website](#)

- Developed an admin dashboard for managing an e-commerce platform with analytics and product management.
- Implemented interactive charts (Chart.js) for real-time sales data visualization.
- Designed a responsive UI with Tailwind CSS, ensuring seamless experience across all devices.

Portfolio Website | *React.js, Vite, CSS3, JavaScript* | [Live Website](#)

- Designed and developed a fully responsive personal portfolio website to showcase projects, skills, and experience.
- Implemented an interactive UI with smooth animations for an engaging user experience.
- Integrated dark/light mode toggle and a dynamic navigation system for enhanced accessibility.
- Focused on clean UI/UX design, ensuring a professional and visually appealing layout.

Task Management App | *React.js, Tailwind CSS, JavaScript* | [Live Website](#)

- Developed a responsive Task Management App with smooth animations for an intuitive experience.
- Implemented task categorization (Personal, Work) with delete & complete options.
- Added dark/light mode toggle & full-screen support for better usability.
